HemoCue® Hb 301 System

Accurate POC Anemia Screening From the Pioneers

Optimized for anemia screening in primary care and blood donation settings, the HemoCue Hb 301 System is a simple and convenient solution. The HemoCue Hb 301 System provides quick, easy access to lab-quality results without compromising accuracy, even in demanding climates with high temperatures and humidity.

With dedicated support and service as well as unmatched training and education based on over 30 years of experience, you can count on HemoCue for the right solutions for all your needs.

Accuracy Starts With Us

Have Confidence in Your Answers at the Point of Care
- Precise factory calibration against the ICSH reference method
- Patented microcuvette technology with excellent lot-to-lot reproducibility
- Robust testing within a wide range of temperatures and humidity
- Blood-based liquid controls available

Get Easy Access to Lab-Quality Accuracy
- Capillary, venous or arterial whole blood sample
- Brief training with virtually no maintenance
- Link result with patient ID for medical record integration
- Printer interface

HemoCue® Hb 301 System

Three Simple Steps

1. Fill microcuvette.
2. Place microcuvette into analyzer.
3. View results.

Principle: Absorbance measurement of whole blood at an Hb/HbO2 isobestic point; dual wavelengths (506 nm and 880 nm) for Hb measurement and turbidity compensation.

Calibration: Factory calibrated against the ICSH reference method; needs no further calibration.

Sample Material: Capillary, venous or arterial whole blood.

Measurement Range:
- 0–25.6 g/dL (0–256 g/L, 0–15.9 mmol/L)

Results: ≤3 seconds

Sample Volume: ~10 µL

Dimensions: 140×70×160 mm (5.51×2.76×6.29 inches)

Weight: 500 g (1.10 pounds) with batteries installed

Storage Temp.:
- Analyzer: 0–50 °C (32–122 °F)
- Microcuvettes: unopened: 10–40 °C (50–104 °F); short-term storage (six weeks) −18–50 °C (0–122 °F)

Operating Temp.: 10–40 °C (50–104 °F)

Power: AC adapter or 4 AA batteries

Interface: Printer and HemoCue® Basic Connect™ including barcode scanner

Quality Control: Built-in “selftest”, optional liquid controls
